

FLINTS, Theatrical Chandlers @ Anti -Freakout! A Sunday Event. The British are coming!!! Bringing unique products and tools to demonstrate, Jo BunnellThompson, Business Development Mgr and scenic artist Grit Eckert with a Ben Lyle, Managing Dir. will be your hosts. "We are excited to bring some of our very own Flints products to Cobalt Studios along with an introduction to the Haussmann range of products. Based in Hamburg, Germany Haussmann has been producing specialist paints and textures for Europe's theatres for over 70 years. We have sold products made by Haussmann for over thirty years and are continually impressed by the quality of their ever-growing range." Born of frustration with the lack of a single source for all his needs when building and painting scenery, Alasdair Flint founded Flint Hire & Supply in London in 1981. Over time, Flints has become a global provider of theatrical goods.

This is what we hope the Show and Tell FLINTS @ Cobalt will include!!

Book: Scenic Art and Construction, Emma Toubridge ... you said -"get her new one"
